AK427

Tilly & Beanz

We were asked to create a “More aggressive” version of Tilly our demonstrator car for a client in Cyprus.

The finished car “Beanz” surpassed the clients expectations!

Beanz, although now complete, will be with us at AK HQ until early spring when he then goes to live in the sunshine with his new family.

AK40

We knew that while we were building our first AK40 demonstrator car “Juniper” that some customers were going to be hot on our heels with their AK40 builds too. It was a challenge for the workshop to keep ahead of some clients. One of those was Smithy. Smithy is an existing AK client having built his AK427 a few years previously. He signed up for an AK40 as soon as we announced that we had purchased the Southern GT project. Smithy built the majority of his “Number 6” car alongside Jon and Dani in the assembly shop here at AK HQ.

“Number 6” is now fully finished, road registered and FOR SALE here at AK HQ.

Smithy has already started his next AK40 chassis and plans to have the second car completed for summer next year.

Not bad for a chap who fly's Spitfires for a living eh!

AKSS & AKD

The AKSS is still in production here at AK HQ. "Paul" our demonstrator was sold in early summer to allow for development to commence on the new "AKD". This is set to become AK Sportscars 4th car model available.

We asked you all earlier this year which options you would like to see on our first AKD demonstrator car. The overwhelming response was that you wanted to see a long nose front and a fin on the rear. "Great choice" was the resounding response from both Neil & Jon!!!!

We had originally hoped to have the first AKD car on the road for Spring 2024. Whilst we are well past the initial design stage with the body molds and chassis jigs being almost ready for the first car to begin life. We have been exceptionally busier than we could of possibly anticipated with the AK40 cars. So much so that we have had to postpone the start of the AKD's production.

We currently have a waiting list of 3 clients whom have paid a small £500 deposit to have the first few AKD chassis we create. All 3 clients have been eagerly awaiting us to produce the AKD in kit form for home builds. If you would like to add your name onto this waiting list then please let us know. We plan to again be keeping ahead of clients building the AKD's while we build our first demonstrator here at AK HQ next year.

2024 DIARY DATES

AK Spring Factory Open Day - Saturday 18th May

Malvern Kit Car Show - Sat 1st & Sun 2nd June

AK Autumn Factory Open Day - Saturday 14th Sept

The AK Sportscars Winter Newsletter

Wendi's top tip If you are taking your AK out to play in the winter. Firstly BE CAREFUL & secondly allow yourself an extra 10 minutes when you return home to clean the salt off the chrome work - You will thank me in spring!!
